MENTAL HEALTH

GUIDE FOR REFERRING PROVIDERS

Mental health referral guide

PHP and IOP in Mississippi. Use this guide to discuss treatment options, contact an office, and arrange a screening.

Partial Hospitalization Program (PHP)

Structured outpatient mental health treatment with greater intensity than IOP, without an overnight stay. Screening helps determine whether the patient can safely receive care outside the hospital and which level of support fits.

Intensive Outpatient Program (IOP)

Regular, structured treatment for people who need more support than weekly appointments. IOP is generally less intensive than PHP and may support patients transitioning from a higher level of care.

Age-specific programs

Children: ages 6-12 **Adolescents:** ages 13-17 **Adults:** ages 18+
Psycamore provides age-specific mental health programs. Confirm the level of care, schedule, and location for the individual patient; availability is not the same for every program or office.

Psycamore@Home: virtual IOP

Virtual intensive outpatient treatment for people in Mississippi. Contact the team to discuss suitability, scheduling, and the arrangements needed to participate from home.

A coordinated treatment plan

Psycamore programs bring together group therapy, individual therapy, family support, and psychiatric care including medication management. The treatment plan determines the services each patient receives.

CONTACTS & NEXT STEPS

Call the receiving office first.

Discuss the referral, confirm screening availability, and ask how to send the completed form and relevant records.

Flowood

2540 Flowood Drive, Flowood, MS 39232

601.939.5993

Fax: 601.939.5935

Biloxi

2620 Executive Place, Biloxi, MS 39531

228.385.7744

Fax: 228.385.5165

Columbus

28 Glenwood Drive, Suite 2, Columbus, MS 39705

662.243.0131

Call for fax instructions.

Virtual IOP inquiries: 601.939.5993

1. Discuss fit and timing

Have the patient's age, reason for referral, preferred office, and referring clinician's contact ready. For hospital referrals, discuss the anticipated discharge date and continuity-of-care needs.

2. Confirm records and benefits

Ask which clinical records the office needs and how to send them. The team verifies insurance before admission; confirm plan participation, authorization requirements, and expected patient costs.

3. Arrange the screening

Confirm the screening appointment and next steps with the patient or guardian. Same-day or next-day screening may be available; call to confirm. The referral form is on the following page.

Flowood phone: 601.939.5993
Flowood fax: 601.939.5935
Biloxi phone: 228.385.7744
Biloxi fax: 228.385.5165
Columbus phone: 662.243.0131
Call Columbus for fax instructions.
